The Standard

No. 8854

TELEGRAMS

(via Galeston.)

Berlin, 4th.—The state of international

affairs has assumed an aspect that

causes uneasiness. The Reichstag is

in session at Berlin, in view of the

eventuality of a war which is now ex-

pressly threatened. The Bill has been

referred to a special Committee.

The papers continue to discuss the

serious condition of the working class

owing to the prevailing misery and

want of employment.

The *Frankfurter Zeitung* has been

used, for a furious article against the

Empire.

The *Vossische Zeitung*, in announcing

the sequestration of its colleague, vir-

lently attacks the Government for its

persecution of the Press.

In all cities great agitation prevails.

Madrid, 4th.—The anarchists threaten

to renew their work of destruction, caus-

ing serious apprehensions. In Valencia

a bomb exploded in the San Nicolas

square, and killed the Altar of the Virgin

and a painting of the Conception, of great

value, by the Spanish Raphael, was also

destroyed.

New York, 4th.—Great surprise has been

caused here by the news of the demands

formulated by the crew of the Baltimore

against Chile. The indemnity asked is

considered enormous, and it is not be-

lieved it will be sanctioned. It is doubt-

ful whether the Government will father

this indemnity in the form in which it

has been presented.

Opoto, 4th.—The bodies of several

fishermen have been thrown up on the

coast. It appears that the recent storm

caused considerable loss of life.

London, 4th.—The Swedish baroness

Elizabeth, en route for Cochinchina, was

wrecked near the Goodwin Sands.

The crew escaped.

Rome, 4th.—It is stated that the Vatican

sent instructions to Paris for the

organization of a conservative republicanism

to combat radicalism. It is said

that the Pope has explained his reasons

for abandoning the cause of monarchy.

THE FALL IN SILVER.

In the London papers received yes-

terday per Portugal we read the fol-

lowing announcement, under date Feb.

6th:—

"The price of silver this week has

been lower than ever before record-

ed, namely 414 pence per ounce, and

the quotation of Indian rupees has

fallen to 16 pence. This is probably

the immediate result of the new law in

the U. States for the free coinage of

silver, and the consequences to the trade

of the world may be far more serious

than the economists and merchants, the

bankers and statesmen of Europe or

America seem to anticipate.

The fluctuations in silver, of late

years, have been extraordinary, viz:—

Period pence per ounce
